Heat Advisory

1 PM CDT until 7 PM CDT

Weather Forecast Office
Midland/Odessa, TX
Issued June 20, 2019 3:19 AM CT

NWSMidland

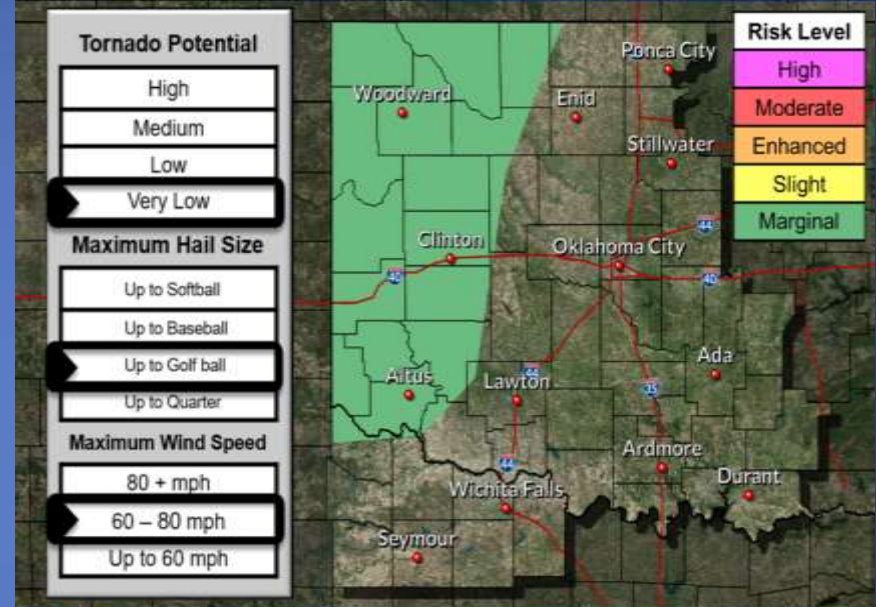

weather.gov/maf

A Heat Advisory is in effect from 1 PM CDT this afternoon until 7 PM CDT this evening for the Central Permian Basin and portions of the Big Bend and Rio Grande Valley. Temperatures will however be hot area wide, so take precautions to protect you, your family, and your pets from the heat!

Isolated Severe Storms Possible Today

Timing: late afternoon and evening

Weather Forecast Office
Norman, OK
Issued Jun 20, 2019 1:21 AM CDT

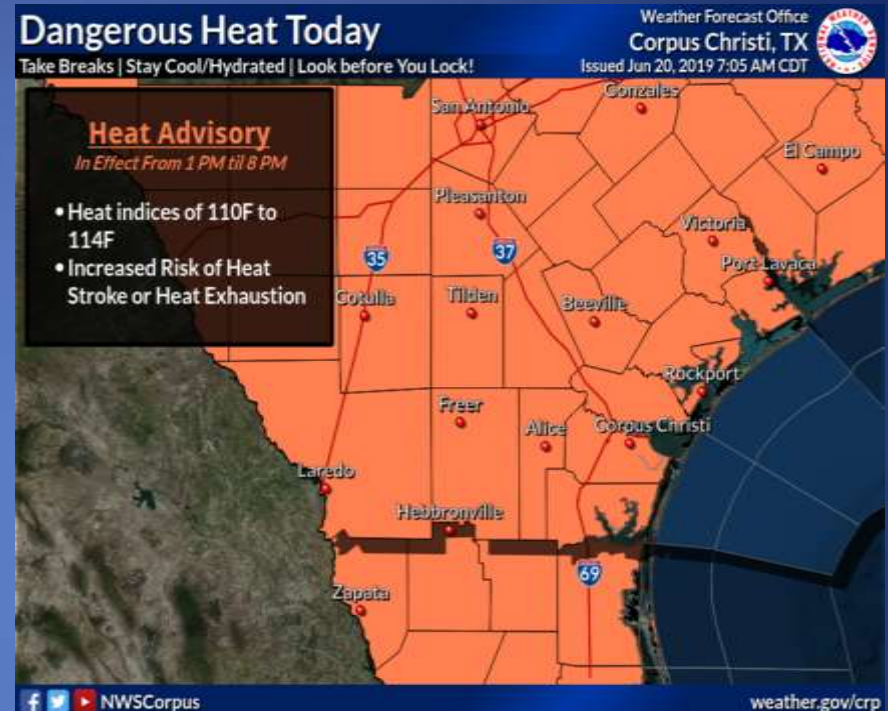

NWSNorman

weather.gov/norman

Hazardous Weather

Dangerous heat continues today with afternoon heat index values approaching 110 degrees. These hot conditions will continue through the next few days. A Heat Advisory is in effect for Thursday from 9 AM to 7 PM. Remember to keep hydrated, limit strenuous outdoor activities, and to look before you lock your vehicle!

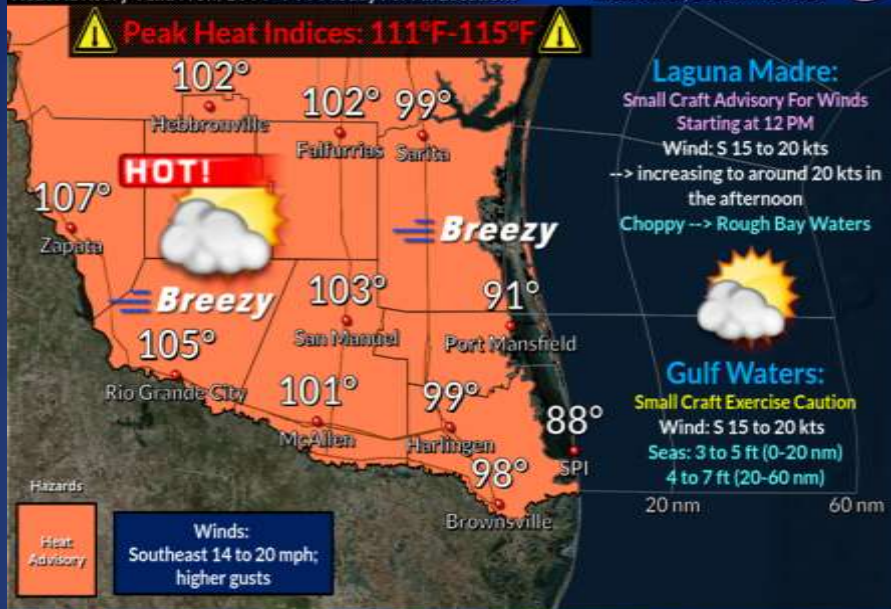

Very hot temperatures today and moist air near the surface will combine to produce dangerous heat index values over South Texas today. A Heat Advisory is in effect this afternoon through early this evening for all of South Texas except for the barrier islands.

Hazardous Weather

Today | Another Round of Dangerous Heat

Heat Advisory Valid From 1 PM - 7 PM Today For All Locations

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 20, 2019 4:44 AM CDT

@NWSBrownsville

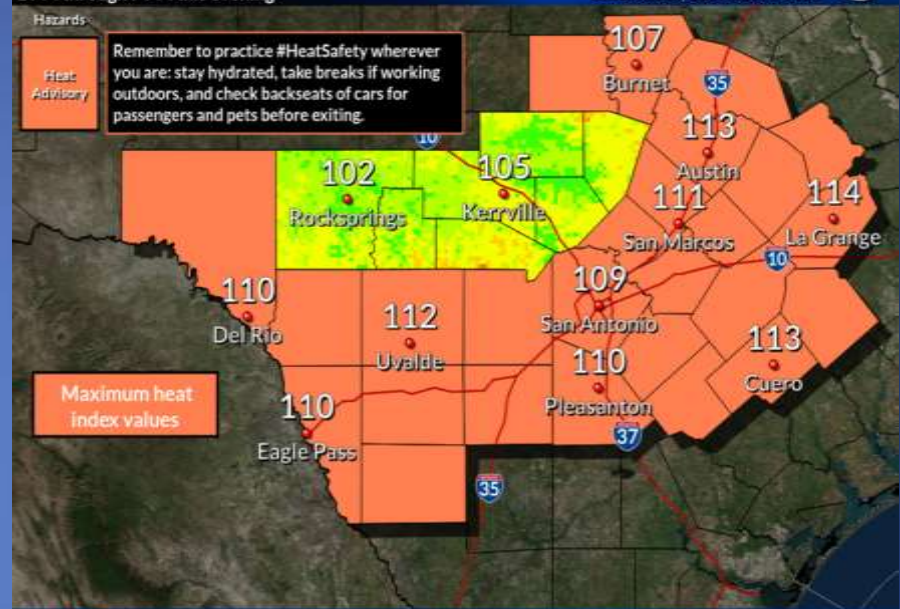

weather.gov/rgv

Another very hot day across the Rio Grande Valley and deep south Texas, with peak afternoon heat indices or "feels like" temperatures between 111 and 115 degrees. For that reason, A Heat Advisory (shown in orange) has been issued for all locations from 1 PM to 7 PM today. Practice heat safety by staying hydrated, limiting outdoor activity, prepping the kids/pets and dressing in light weight/colored clothing. Skies will become partly cloudy or mostly sunny by this afternoon. Southeast winds will become breezy later this morning and continue this afternoon, with gusts near 30 mph possible in some locations. For mariners: A Small Craft Advisory For Winds goes into effect for the Laguna Madre starting at noon and will continue until this evening. Choppy to rough bay waters expected. Operators of small craft should exercise caution on the Gulf waters, with seas generally 3 to 7 feet between 0 and 60 nm.

Heat Advisory

1 PM through 7 PM this evening

Weather Forecast Office
Austin/San Antonio, TX
Issued Jun 20, 2019 3:20 AM CDT

NWSSanAntonio

weather.gov/ewx

A Heat Advisory is in effect for most areas from 1 PM through 7 PM this evening. Hot temperatures and high humidity values will result in heat indices of 108 to 112 with isolated spots up to 114. A Heat Advisory means that a period of hot temperatures is expected. The combination of hot temperatures and high humidity will combine to create a situation in which heat illnesses are possible. Safety tips: Drink plenty of fluids...stay in an air-conditioned room stay out of the sun and check up on relatives and neighbors.

Hazardous Weather

Dangerous Heat Conditions Today

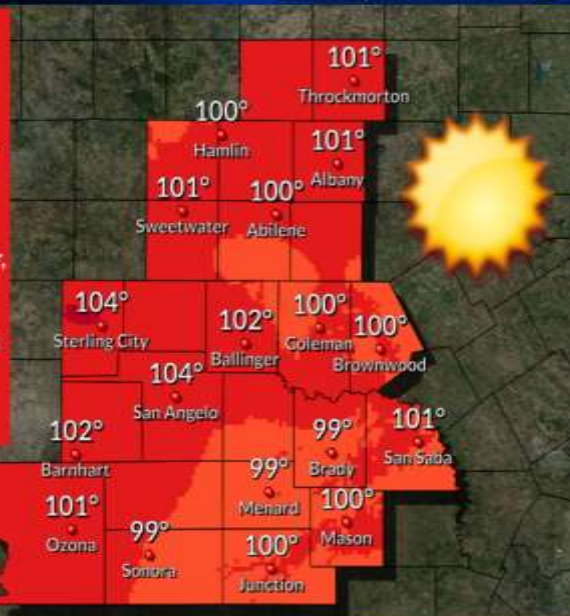

High Temperatures

Weather Forecast Office
San Angelo, TX
Issued Jun 20, 2019 3:45 AM CDT

A combination of hot temperatures and high humidities will create dangerous heat conditions across West Central Texas this afternoon.

If you must spend time outdoors, drink plenty of water, stay out of the direct sun during the hottest time of the day, and check on relatives and neighbors to make sure they are safe.

f t NWS San Angelo

weather.gov/sjt

Hot temperatures and high humidity values will lead to dangerous heat conditions today across West Central Texas

Dangerous Heat Today (Thursday)

Heat Advisory thru 8 P.M. Today | Numbers are Today's High Temperatures

Weather Forecast Office
Fort Worth, TX
Issued Jun 20, 2019 5:00 AM CDT

Dangerous heat expected today with Heat Index Values in the 105-110 degree range.

A Heat Advisory is in effect thru 8 P.M. today for the counties shaded in orange.

Be sure to check on those without power in the wake of yesterday's storms...especially the elderly!

Avoid strenuous outdoor activity during peak heating!

Ensure that you remain cool and hydrated with plenty of water!

f t NWS Fort Worth

weather.gov/fortworth

Dangerous heat expected today with Heat Index Values in the 105-110 degree range. A Heat Advisory is in effect thru 8 P.M. today for the counties shaded in orange. Be sure to check on those without power in the wake of yesterday's storms...especially the elderly! Avoid strenuous outdoor activity during peak heating! Ensure that you remain cool and hydrated with plenty of water!

Hazardous Weather

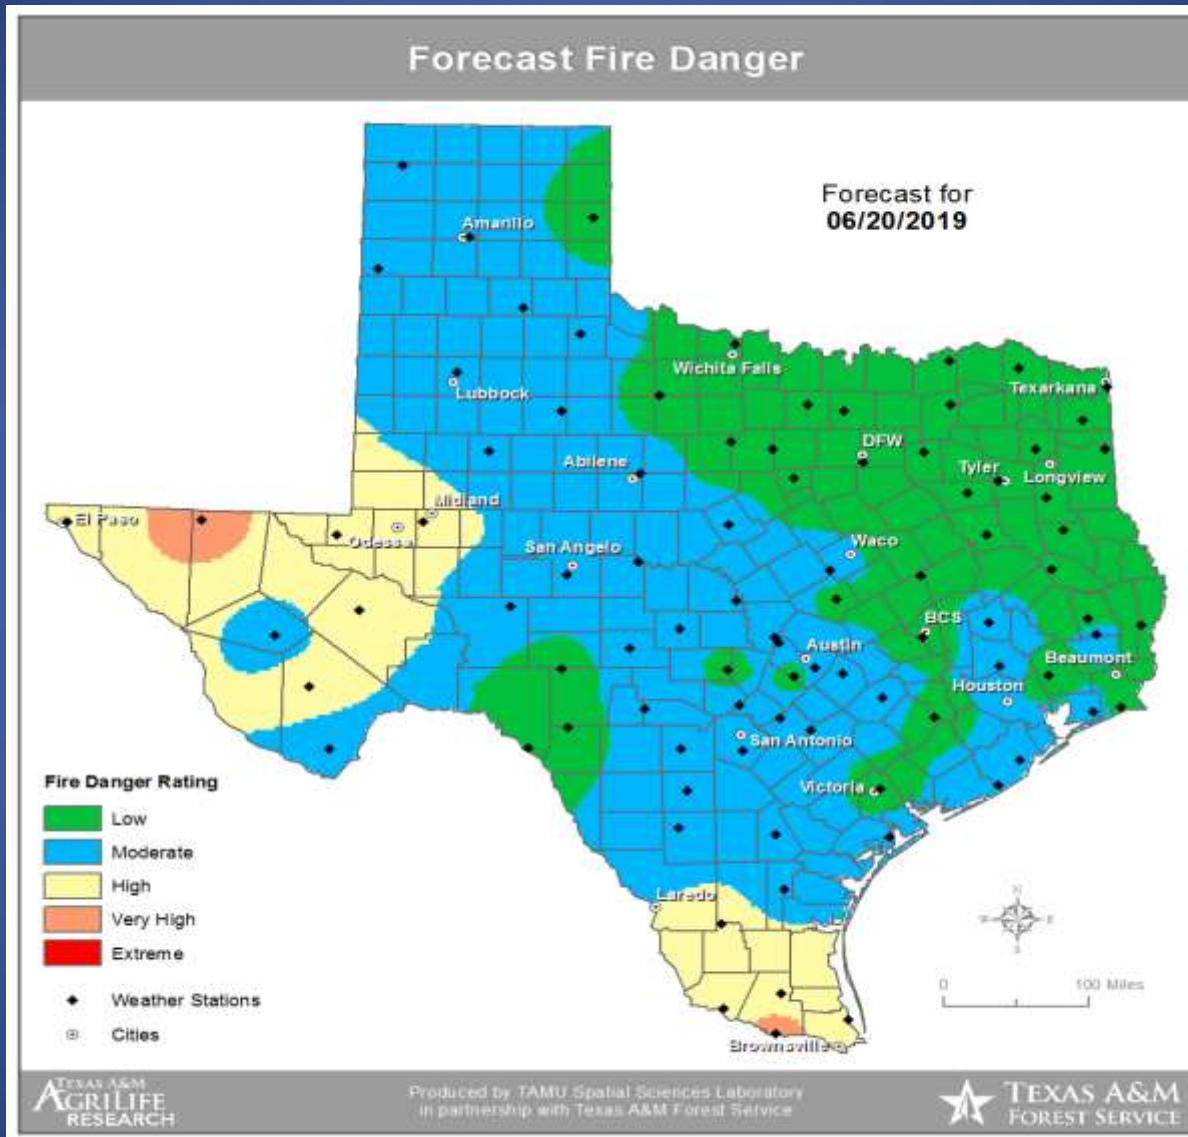

A Heat Advisory means that a period of hot temperatures is expected. The combination of hot temperatures and high humidity will combine to create a situation in which heat illnesses are possible. Drink plenty of fluids, stay in an air-conditioned room, stay out of the sun, and check up on relatives and neighbors. Take extra precautions, if you work or spend time outside. When possible, reschedule strenuous activities to early morning or evening. Know the signs and symptoms of heat exhaustion and heat stroke. Wear light weight and loose fitting clothing when possible and drink plenty of water. To reduce risk during outdoor work, the occupational safety and health administration recommends scheduling frequent rest breaks in shaded or air conditioned environments. Anyone overcome by heat should be moved to a cool and shaded location. Heat stroke is an emergency, call 9 1 1.
